A Scientific Visit to the ‘Body World’ Museum

A scientific trip organized by Dr. Mohammad Fawzi, and Ms. Kawthar Kayed from the College of Pharmacy, Al Ain University, Abu Dhabi campus, for the pharmacy students to the ‘Body World’ Museum at Khalifa University. Where the students toured the exhibition, which exposes the human body after exposure to anatomy and plasticization and learned about this process through an introductory video explaining these steps. The museum also includes real parts of the human body, animals and other anatomical structures such as the liver, kidneys, heart and blood vessels.

The purpose of this visit is to provide students with a comprehensive knowledge of anatomy, physiology and public health.
