Alumni Office - From the educational stage to the practical stage

Stemming from Al Ain University's vision and strong belief in the necessity of building and sustaining strong links with its former students, as well as keeping track of their latest achievements; the "Alumni Office" has been established in both Al Ain and Abu Dhabi campuses. This office is regarded as the main means of maintaining lifelong connections with the graduates; in addition to providing them with careers advice, professional and social supportive services.

An electronic portal has been created to enable our alumni community to register and become a part of the graduates' network in order to stay in touch and be informed about all available benefits and opportunities.
